EXPERIENCE

TechnoMile India Pvt. Ltd, Software Engineer (Product Engineering Team Salesforce)

May 2021 - Present

- Worked on **US Government Contracting Products**, primarily the **GROWTH** Product, which includes many features such as PWIN/PGO, Scorecard, Account Management, Relationship Mapper, Global Calendar, and so on.
- Developed **PGO Admin Component** using **LWC**, which is used to create a questionnaire to check whether the organization needs to go for that particular opportunity or not.
- Developed **Lightning Web Component**, which uses **Balkan OrgChart** as a third-party library. This component is mainly used to show the contact hierarchy tree present in the organization that is related to that specific Account or Opportunity.
- Developed **Export Functionality** using **Aura Components** and is used to export contacts from **Relationship Mapper** into Word, Excel, PDF, and PPT formats. For PPT exporting, I also used the **third-party library PptxgenJs**.
- Developed and maintained an Aura Component named Global Calendar, which used the **fullcalendar 3.0 plugin** to meet the needs of clients and **export calendars in Word format**.
- Worked on the **jQuery OrgChart plugin** and successfully enhanced and implemented new requirements in **Relationship Mapper**, which was built using Aura Components.
- Created **configurable admin components** that allow administrators to set predefined configurations for their functionality and **store them in a document object** in the form of a txt file.
- Worked on the **Salesforce Security Review 2023** and made changes as per the latest security standards. I had to work on improving code quality and following best practises to **eliminate vulnerabilities in code.**
- Worked extensively on **Apex triggers, Apex classes and Apex test classes** to fulfil the requirement. **Followed best practices** and standards for accessibility and Cross-browser.

EDUCATION

- B.E (Mechanical Engineering), K.D.K College of Engineering, 2018

HOBBIES AND INTERESTS
